

# SAHALINTECH.SSU

## The university of successful and happy people

Alexander Sergeyevich Samardak  
Rector

# Sakhalin Region in the horizons up to 2035

## REGION

- Annual **GRP growth** – **6%** per year
- TOP-5** investment potential ranking
- TOP-10** leading regions in quality of life
- Net migration rate (per 100 ppl) – **2,75**

## BUSINESS >60 investment projects >600 bln RUB >23k job opportunities

**OIL AND GAS INDUSTRY** – 5 projects: 200 bln RUB

**COAL INDUSRTY** – 2 projects: 25,8 bln RUB

**FISHING INDUSRTY** – 3 projects: 9,7 bln RUB

**CONSTRUCTION SECTOR** – 6 projects: 13,6 bln RUB

**COMPOSITE MATERIALS** – 1 project: 6,5 bln RUB

**EDUCATION AND SCIENCE** – 3 projects: 25 bln RUB

**TIMBER SECTOR** – 1 project: 13 bln RUB

**INDUSTRIAL PARKS** – 3 projects: 8,3 bln RUB

**AGRICULTURAL SECTOR** – 2 projects: 8,1 bln RUB

**NEW ENERGETICS** – 2 projects: 31 bln RUB

**TOURISM** – 29 projects: 21,5 bln RUB

**TRANSPORTATION AND LOGISTICS** – 11 projects: 70 bln RUB

**REGION DEVELOPMENT IS IMPOSSIBLE WITHOUT THE LEADING ROLE OF UNIVERSITY!**

# Region Capacities

## First centre of Unmanned Vehicles in the Far East

Unmanned vehicles in every school!

### Unique practical base

Unmanned vehicles production  
SSU, SCB MSAT

## First hydrogenic cluster

2024

Hydrogen grounds  
Advanced Engineering School

### New Energetics: Transition to hydrogen H<sub>2</sub>

### Unique practical base

Grounds for technological solutions development  
in hydrogen energetics  
SSU, SCB MSAT (FEB RAS), MIPT, BMSTU

## First AI region

2023

Artificial Intelligence -  
in every school

2024

Artificial Intelligence -  
in every ministry

**83** projects  
in the region are realised  
with the help of AI

AI Centre  
SSU and  
Sber

## First climatic project

2022

V.V. Putin  
Federal Law on  
climatic  
experiment

2025

Sakhalin Region  
is carbon-neutral

Unique  
practical base  
SSU Climate  
Centre

Sea  
carbon  
grounds

Wetland sea  
carbon  
grounds

# Yuzhno-Sakhalinsk – fast-developing city

>20 sports facilities  
64% people engaged in sports

7 museums

5 theatre-cultural centres

2024

Main building  
SahalinTech.Centre (4500 sq m.)

Partnership with Sber

- AI centre
- 21.SBER School – the best in RF

Preuniversity (SahalinTech.Alaid)

Human capital

**100+**  
brought in employees  
among them 50+ outside of Sakhalin  
Region  
**12 PhD, 27 Candidate Degree**

population growth in the region for  
the year of 2024  
(first time in 7 years)

New enrollment campaign at federal  
level

**3892** applications  
**100%** target  
admission figures  
achieved

[Поступайвунивер.пф](https://postupayvuniver.pf)

Scientific-technology development

- First hydrogen grounds

- First drone  
nest

- Gazprombank research  
centre

- First sea wetland grounds

**28** programs of Higher and  
Further Professional Education,  
**10** new laboratories

**50th place**  
of the region in STD ranking  
(moved up from 63rd)

Other achievements

- Region Management School –  
best practice

- First acoustic hall акустический  
зал «Symphonia»

- First branch of B.Shchukin  
Theatre Institute

2024

## New strategy

61,7 average point at Unified State Exam

1617 higher education students (full-time)

36 international students

129 academic staff

56 articles in Scopus, 2024

4 intellectual property (IP)

8 new laboratories and research centres

170 mln RUB research and development (R&D)

2025

2000 higher education students (full-time)

Campus for 1 500 students

19 new academic programs

2 700 students

300 academic staff

2026–2027

67,3 average point at Unified State Exam

2700 higher education students (full-time)

150 international students

300 academic staff

75 articles

10 IP

21 laboratories (campus)

300 mln RUB R&D, incl.

50 mln RUB IP

## New schools

Ocean Economics School

Artificial Intelligence School

Advanced Engineering School

Region Management School

Contemporary Asia Study School

School of Pedagogics and Socio-Humanistic Technologies

Biodiversity, Biotech, Foodtech, climate and ecology

Unmanned vehicles, AI, IT security

Hydrogen technologies, energetics, new materials, offshore production technologies

Public administration, MPA, MBA, economics, law, lean production and project management

Oriental studies, languages, history, culture, politics, business and logistics of Asia-Pacific countries

New educational technologies, sociology, psychology, pre-school and school education, work with talents, career plans

## Specializations

priority

Передовые инженерные школы

2036

70,2 average point at Unified State Exam

4000 higher education students (full-time)

1000 international students

500 academic staff

400 articles

30 IP

50 laboratories SahalinTech

2,9 bln RUB R&D, incl.

500 mln RUB IP

## R&D-centres

SahalinTech.Aqua  
SahalinTech.Energio  
SahalinTech.Geo  
SahalinTech.Agro  
SahalinTech.Socio

### Session specializations

SCIENCE	Unmanned flying vehicles
	AI
	H <sub>2</sub>
	Climate and ocean economics
SPORT	Karate
	Alpine skiing
	Water sports
	Chess
ART	Music theatre
	Drawing (exhibition)
	Theatre (performance)
	Activities, Museums, Theatre

### Science and Technology Track (Aykhor laboratories)

### Alaid.Far East

Camp «Vostok», SahalinTech Centre (Aykhor)  
«Science+Sport+Art»

- Area 5000 sq m
- 8 studios
- 10 classrooms
- 8 laboratories
- Observatory
- Library
- Lecture-hall

# PROGRESS BY WINNING

## WORLD OCEAN

INTERDISCIPLINARY OLYMPIAD  
FOR RF AND BRICS STUDENTS

The participants will work on the forecasting models of the climate changes, their impact on the marine ecosystems, and on developing strategies for sustainable marine resources management

## HYDROGEN ENERGETICS

INTERDISCIPLINARY OLYMPIAD  
FOR RF AND BRICS STUDENTS

The tasks concern research and development of new methods of hydrogen production and storage as well as its use for clean energy production

## UNMANNED VEHICLES

INTERDISCIPLINARY OLYMPIAD  
FOR RF AND BRICS STUDENTS

The participants have to develop and improve unmanned vehicles technologies. The projects can concern navigation system, sensory equipment as well as solution of the safety and control problems.

## ARTIFICIAL INTELLIGENCE

INTERDISCIPLINARY OLYMPIAD  
FOR RF AND BRICS STUDENTS

The participants are requested to develop algorithms and models that can improve existing technologies in the machine-learning field and data processing.

2024

## Program

Registration

October 3 - October 20

2nd elimination round

October 23 - October 30

1st elimination round

October 10 - October 20

Final round

November 14 - November 20

+10 points in  
**SSU**

[olymp.sakhgu.ru](http://olymp.sakhgu.ru)

**Total enrollment in Sakhalin State University for  
higher education degree and secondary vocational  
education degree in 2024**

**2149 people**

**Higher education – 1033 people**(970)

782 people  
state-subsidized education

251 people  
paid education

**Secondary vocational education – 1116 people**(1128\*)

635 people  
state-subsidized education

481 people  
paid education
